

Smith & Wesson Model 60 NY-1 revolvers  
returned to Smith & Wesson by the  
New York City Police Department

The New York City Police Department acquired approximately 4,000 of the Smith & Wesson Model 60 NY-1 revolvers between 1987 and 1989.

When the guns were withdrawn from service the Department returned unsold revolvers in Equipment Bureau inventory to Smith & Wesson.

Smith & Wesson reconfigured the guns to conventional SA/DA configuration and released them into commercial channels. Some of them might have been re-barreled to 3 inch but that is unconfirmed.

The serial numbers listed below are for unsold guns in New York City Police Department Equipment Bureau that were returned to Smith & Wesson. The total number of serial numbers listed is 1,232. The actual number of returned guns may have been slightly higher but these are the serial numbers I could find records for.
